Violation of Any Provisions Will
Render the Paroles
Void

(Associated Press.)

WASHINGTON, Dec. 30.—The sentences of eight members of the Industrial Workers of the World, convicted in the Haywood case of conspiracy and violation of war time laws, were commuted by President Harding today to expire at once on condition that the eight prisoners leave the United States and never return.

The men's whose sentences were commuted were Aurelio Vincenti Azumara, sentenced to 20 years; C. J. Bourg, ten years; Peter Green, 10 years; Charles L. Lambert, 20 years; Harold Llyod, 5 years; Bert Lorton, 10 years; Sam Scarlet, 20 years; Archie Sinclair, 10 years.

The prisoners will be given 60 days in which to arrange for their departure and will be required to give bond on their departure from the prison that they will appear at a stated time and surrender themselves for deportation.

All of the men are subject to deportation and it was a condition of their commutation that should they ever return to this country, the clemency granted would be void. It was further said that the President had reached the decision that should any of them return, they would be apprehended and returned to Leavenworth penitentiary to serve out the remainder of their sentences.

Big Rush Made To
Pay Up City Taxes

A big rush to pay taxes about to become delinquent at the city halls of both Albany and Decatur, was noticed this morning. Clerk Hartung stated that at previous year-ends he had taken in as high as \$8,000.00 in the last day, and that he was in hopes such a large amount or larger would be forth coming before he closes up tonight for the year 1922.

He said that municipal and school taxes now due and delinquent after January 1st amounted to in the neighborhood of \$20,000.

CHAMPION TREE, FELLED NEAR
HERE, COST \$125 TO CUT DOWN

Dr. B. P. Brindley Tells of Big Timber Sawed On
Brindley Bottom Land

From Dr. B. P. Brindley, of Cullman county, who is here today looking after some tax matters incident to the closing of the year, was cleaned the interesting account of a large poplar tree which was felled on the lands of his sister, Miss N. M. Brindley, sometime ago. The tree was in what is known as the Brindley Bottom. It stood seven miles from Cullman, and is adjudged, the largest tree ever delivered to the saw mills of this country.

The contract to fell the tree and deliver it to the saw mill of the Hitt Lumber Co., called for an expenditure of \$125.00 and it is said that the contractor lost money in the deal. Some idea of the bigness of this tree can be gained when it is said that it was necessary to scaffold up to quite a distance before the work of sawing it down was begun. It was necessary to order a special saw 20 feet long to do the work with. When sawed down, several days being required to complete the feat, it left a stump 16 feet or more in diameter across the top.

Several cuts were gotten up to the first limb, and large saw stocks were gotten from the limbs, the smallest one being 18 inches at the small end. So great was the interest displayed in the cutting of this immense tree, that a crowd of a hundred or more people was gathered at the place to see the work completed.

From all accounts this tree is entitled to a place along with the large trees of California, North Carolina and Arkansas. Dr. Brindley states that there are yet other immense trees in this same locality, none of which approach the bigness of this one. He stated, however, that there is one now standing near the same spot from which this immense one was cut, which is hollow, and it is possible for as many as a dozen men to stand within the enclosure and build a fire in the center with no further damage to the tree.

Child Labor Laws
Will Be Proposed(Montgomery Bureau,
Albany-Decatur Daily.)

MONTGOMERY, Ala., Dec. 30.—Plans for the submission of a legislative program at the quadrennial session of the Legislature next year were discussed by the state child welfare commission at the final meeting before the change of administration which was held at the White House Friday afternoon. Governor Kilby, ex-officio chairman of the commission, was unable to attend because of the inspection trip to various state institutions which the governor had arranged for the benefit of Governor-elect William W. Brandon.

The child welfare commission will ask the legislature to increase the state appropriation to one hundred thousand dollars annually and to provide such additional machinery as will protect the children of all counties of Alabama. Details are being worked out by the commission in the hope that the program for legislation may be proposed at the earliest possible moment after the legislature begins its session January 9.

CHILD SERIOUSLY
HURT BY PISTOL;
NOW IN HOSPITAL

William Harris Lee, 11 year old son of Mr. and Mrs. J. G. Lee, of East Albany, is at the Benevolent hospital suffering from serious injuries received Christmas morning when a toy pistol exploded, the lead taking effect in the child's hand.

Later the wound became more serious and the child was taken to the Benevolent hospital, where an operation was performed last night.

The youth had seen older boys handle the pistol, regulating the hammer so that it could be put in the pocket without danger of explosion. However, in some manner, he permitted the hammer to come into contact with the explosive cap and the gun was discharged, inflicting a painful, but not at the time believed to be serious, wound in his hand.

EX-SERVICE MEN
CALLED TO MEET

Ex service men interested in the reorganization of the local post of the American Legion were requested to meet Wednesday evening to elect officers and transact such other business as may come before the session.

The call follows.

Comrade and Friends:

The Commander of the Morgan County Post No. 15, American Legion, comrade Roy Billings, has designated the undersigned to call a meeting of the ex-service men in the twin-cities for 7:30 p. m., Wednesday, Jan. 3rd, 1923, in the Decatur City Hall for the purpose of electing officers for the incoming year and, to map out plans for our activities.

We wish to call your attention to the fact that, the Legion as a whole, the national organization, has accomplished much good the past year and, the local posts, in nearly every case, have contributed to the results obtained.

There is a great field here, for us to do things, provided, our efforts are properly directed and carried out, so without fail, come to this meeting and let us join our effort and put Morgan County Post on the map of the Twin Cities as an organization that has the good of the entire community as well as our own, at heart.

With the sincere hope that you will attend this meeting, bearing in mind the fact, that we will get out of it, just what we put in it, no more, no less, we are,

Yours for a BIG Legion Post in 1923,

SHOOTING OF MAN

(Associated Press.)

LOUISVILLE, Ky., Dec. 30.—The shooting to death of O. L. Black, automobile company sales manager, in the apartment of Mrs. Oliver Jones, divorcee here last Sunday night, was without "justification," according to the verdict of the coroner's jury yesterday which identified Mrs. Jones as the slayer.

The woman was held to the grand jury under a charge of murder. The commonwealth has constructed a theory that jealousy and fear of losing the victim's companionship was the motive of the shooting.

LARGER PROGRAM
OF ACTIVITY NEXT
YEAR PLANNED BY
"Y" MANAGEMENT

Secretary Randolph Tells of the
Association's Plans For Next
Twelve Months

RELIGIOUS MEETINGS
ARE HELD AT SHOPS
Building Will Be Improved
Greatly By the Louisville
And Nashville

A comprehensive activities program is now being carried on by the R. R. Y. M. C. A. and for the new year a still larger one is contemplated, according to the Executive Secretary, C. J. Randolph. Mr. Randolph said that his plans would not wait on the proposed rehabilitation of the Association, but that they would be carried out along with the changes to be made from the basement story to the third story. The bids asked by the Louisville and Nashville railroad on the plumbing and general repair, are not all in yet and no decision has been made as to just when the physical repair work will begin—but early in 1923, according to Mr. Randolph.

"We are having religious meetings at the shops every day and have been for the last three weeks," said Mr. Randolph. On Tuesday we will have four religious services in different parts of the shops. We hold these meetings in the different departments instead of at the gates now, as the weather is a little too cool for open meetings."

Mr. Randolph said that as early as possible he planned to have Sunday afternoon religious meetings at the Association building, and hoped to bring a number of religious leaders in from surrounding cities.

Games Program in Progress.
Weather conditions have not been threatening enough, according to Mr. Randolph to prevent the playing of the regular games at the shops during the noon hour. One additional volleyball court is being planned to be located between the round house and the machine shop building. Also plans are being laid for a new basketball court. It is the intention of the Y. M. C. A. management to get basketball teams going to form a league of these players.

Educational Activities.
The Association has in a bid for a modern stereopticon and combined moving picture machine, with a Birmingham firm, and it is planned to exhibit scenes every day at noon time at the shops, and have similar pictures at the Association building in the afternoons and at night, these last shows to be for the benefit of the children and regular members of the Association and their friends. The weekly "Henry Ford" picture reel will be exhibited regularly, according to Mr. Randolph, just as soon as it can be secured from the Ford offices in Detroit. These reels will be shown often at the shops and at least once a week at the building.

Gymnasium Activities To Start.
Mr. Randolph said that in these modern times so-called "apparatus" for a gymnasium was obsolete, and that only the acrobats and other people who needed special training, and development of certain parts of their bodies now used a long line of appliances in a gymnasium. He said that gym games and standard exercises were the thing now, and that he hoped to provide ample space for such activities, pending the provision of a regular gymnasium. He said there was some talk of a large new temporary gym building being erected at the back of the Association, that could be used by the membership and school children as well.

NO PAPER MONDAY.
Following its annual custom, The Daily will observe New Year's Day and will issue no paper on that date.

Praise of Henry Ford and His Offer
Read Into the Congressional Record

(Associated Press.)

WASHINGTON, Dec. 30.—Representative Mansfield, Democrat of Texas, read in the record today a statement that Henry Ford was making coke and selling it to his employees at \$8 a ton, about half the price employees were charged by the "coal barons."

"That's a fair example of what the farmers may expect in the way of fertilizer if Ford gets Muscle Shoals," he said.

"Action speaks louder than words and Mr. Ford does not talk very much."

POLICE PROBING
ALLEGED ATTEMPT
AT AUTO HOLD-UP

Police are probing an unusual occurrence on West Moulton Street last night, when an attempt was made to rob the occupants of an automobile or J. P. Prosser and members of his family were victims of "mistaken identity."

Mr. Prosser, together with his daughter, Sarah Prosser, sister-in-law, Mrs. E. H. Speake and little Billie Speake were enroute to the station, where Mrs. Speake was to take a train for her home in Atlanta, when an effort was made to halt their car on Moulton street.

The incident occurred between eleven and twelve o'clock. As the automobile sped along the street, a man was seen to step into the street and wave a white handkerchief at the motorists in an effort to halt them. One of the occupants, however, believed she saw a mask on his face and warned the driver, Miss Prosser, to speed past him.

Safely by the stranger, Mr. Prosser reported the matter to the Albany police and later visited the scene with the officers, but no trace of the stranger was found.

Repair Work On
Bridge Completed

The bridge work on the railroad bridge over Flint creek where a serious wreck occurred several months ago, necessitating all the traffic over the south bound portion of the bridge has been completed, and the work of tearing up the switches to the approach at each end of the bridge is now in progress. The bridge crew having completed their portion of the work, having removed the false bridge used as a support while the work of repairing was in progress.

So soon as the switches are removed and the main track turned over the newly completed structure, trains will begin to use the north bound track. Since the wreck occurred it has been necessary to stop all trains each way at the bridge, a station being maintained there with a regular man in charge.

WASHINGTON, Dec. 30.—Benedict Crowell, assistant secretary of war under the Wilson administration, and six "dollar a year" men, associated with the counsel of defense, were indicted here today by the special grand jury, investigating war grafts, on charges of conspiracy to defraud the government in construction of war time army camps and cantonments.

The others indicted are:

The indictment charges a conspiracy to maladminister existing laws and regulations to control the giving of contracts to friends and associates and clients under the "cost plus" system, which, it is charged, resulted in a loss to the government of millions of dollars and reduced the morale of labor.

AMERICA MAY LOAN
ARMENIANS FUND

(Associated Press.)

LAUSANNE, Dec. 30.—Plans for an Armenian national loan, financed by a possible \$20,000,000 appropriation by the United States congress or a popular loan in America, in addition to funds from other countries were presented to the Near Eastern conference today by the American delegation.

It is suggested in the plan that the Armenian loan be placed in Cilicia, just north of Alexandrette, in territory of about 15,000 square miles. The plan is the work of R. Montgomery, director of Armenia-American Society, announced that he has just received a resolution was adopted in the house of representatives authorizing President to lend \$20,000,000 for the Lausanne conference to make adequate territorial provisions.

WE FAVOR ACCEPTANCE OF HENRY FORD'S BID FOR MUSCLE SHOALS.

LET "FORWARD" BE THE SLOGAN AND WATCH-WORD FOR 1923.

When the issue of The Daily following this one reaches its readers, we will all be traveling the pathway of another year. Forward—should be the watchword of every one of us. And it must be, if we succeed in the days, weeks and months that lie out before us. Behind us are shadows of the track. But what do they amount to, if we do not look back? Let us consider the past for what it is—the PAST. Forgetting the past, let us reach forward to the duties and privileges that are before. The future will be all brightness, if we will prevent the shadows of the past from casting darkness and gloom before us. We must out-run the past. We must keep ahead of the past. If we keep our faces straight ahead, we will never know there are shadows coming from behind. If we will but follow the star of promise—if we will go straight toward the light—there will be no darkness and no past.

Just for the sake of reasoning a bit, suppose all is dark behind, and on each side, can such darkness cast its shadow of the future which is as a bright light? It all depends. If you are not following toward that bright light, you will not see the light and the shadows will be all about you. Suppose you stop and stare back as did an ancient's wife? Then you will be standing in your own light. And suppose you even are unwise enough to start walking toward the past? If you do that you will be walking in the darkness caused by your own self. Just as in the night, if you walk away from a light your body prevents that light from lighting your pathway. But if you walk in the night and move toward a light, your way is clear. Finally then, suppose we are in the dark, suppose these communities are in the dark, we will but walk toward the light of the future. We will soon be out and away from the dark.

The community is not in the dark. It is in the light. It is like a city set on a hill and cannot be hid. The past ever opened so auspiciously for these cities and for this section of the state. The products of the land are now being marketed in the markets of the world. The future is emerging from the times of stress and sorrow for cotton and corn. He is getting a fair price for his merchant, and to the satisfaction of all, satisfactory arrangements for

another year. The farmer has plans and organization this year (benefits he did not have last year) that insure him the best possible prices for his cotton. In a word the farmers have learned to co-operate and they will benefit accordingly. And as the farmers all about us are learning the lessons of cooperation and its practical value, so these Twin cities are learning to cooperate as never before. They have said in effect "away with the low vaulted past"—we want a future whose limit is the sky! "Away with short sighted, self seeking; such as cannot give up a little now, so as to reap a great gain in the future, and for the future boys and girls of this community."

We repeat it—this community is not in the dark. It is in the full glow of the noon day sun of promise. It is a city—set too high as regards opportunity, ever to descend—or to come down to low things!

I feel let "forward" be the watchword, and all will be well with us.

A TRAIN OF THOUGHTS FOR SABBATH AND OTHER DAYS

By J. E. Blair

To be successful during the New Year, consider life a divine thing. Do this, and you need not dust off your old resolutions. In fact you will not need to resolve at all. We must consider every day of 1923, noble, select, significant and full of divine opportunity. And we must consider ourselves each one a unit in God's great scheme of things. Divine splendor shines over all. Every moment is as divine, as the one just ahead of it; but the past moments are gone forever. The present and the future is ours. Every hour is crowded with opportunity. Every morning we can catch the tide of destiny. The earth and heaven are ours. They are the same on God's calendar, and they may be the same on ours. Take the thought of divine opportunity into the home. Every cradle rocks a possible son of God. "To as many as believed on Him, gave He power to become the sons of God." Every mother may hold a future child of the Kingdom in her arms. Every father may hold the hands of future saints. Always, every body who will, stands on the threshold of divine opportunity. But mind you, in the kind of world we live in, our days and nights may not always be full of music and sweet content; but all our time may be full of thoughts of God. If we will meditate on Him "in the night watches", as David said he did, joy will be sure to come with the morning light. If we seek the things that are above, Heaven will bend to us—not always to our wishes, but always to our ETERNAL good. "My joy, I leave with you," was not spoken as a promise made to be broken. He meant exactly what He said. A few will tell you they feel this joy. He has had witnesses to His truth in every age, and in every city. All you have to do to join that heavenly band is to accept your divine parentage. The little children experience no difficulty in appreciating divine things and divine messages. It is no more to them to think of God as their father, than it is to think of their earthly father, as father. It was because this is true, is a reason why Christ said—except ye accept the Kingdom as a little child, ye shall in no wise enter that Kingdom. And just one solemn warning—If we ever discourage the little ones, and cause them to forget God, it were better that a great stone had been fixed about our necks, and that we had been drowned in our youth time. There is no more startling evidence of the fall of man than that he finds such difficulty in believing in God, and in accepting divine opportunities!
